Glenwood Springs to Host Virtual Community Workshop on Outdoor Recreation and Community Vitality

Glenwood Springs, CO – The City of Glenwood Springs will hold a public virtual workshop on outdoor recreation and community vitality, taking place August 10-12, 2020 as part of the Recreation Economy for Rural Communities (RERC) planning assistance program.

Glenwood Springs is one of ten communities selected to participate in the RERC program for the inaugural 2019-2020 program year. RERC helps communities to develop strategies and an action plan to revitalize their Main Streets through outdoor recreation. Attached is a Community Guide document detailing RERC program components. Part of the process is an interactive workshop with the public to create an action plan.

The workshop is a series of seven interconnected, virtual video conference sessions spaced over three days. Participants will share perspectives about what makes Glenwood Springs special and will help create an action plan for leveraging the City's many outdoor recreation assets to improve downtown businesses and economic opportunities for all.

Interested parties can register for the event at the following links:
