PRESS RELEASE

June 11, 2020

Glenwood Springs Community Center to Phase Reopening Beginning June 15, 2020

GLENWOOD SPRINGS, CO – The City of Glenwood Springs Community Center will partially reopen on Monday June 15, 2020. Reservations will be required to use the Community Center and will be available Monday - Thursday between 6:00 am - 7:00 pm.

“We are reopening cautiously, with limited facilities at first, and phasing in others as guidelines and staff capacity allow. We will be following very strict standards for sanitation and social distancing to keep our members safe as we welcome back this very important city amenity. It is important to remember that these regulations can change overnight, so our policies and procedures will need to be flexible. With the help of our patrons following guidelines we aim to continue our phased reopening plan with more amenities available soon,” said Parks and Recreation Director Brian Smith.

Access is limited to two fitness areas and the lap pool and guests may only enter the area for which they have a reservation. Reservations must be made online prior to arriving at the Community Center as no transactions will occur at the front desk.

Separate entrances will exist for pool and fitness users. Guests should reference their reservation and pay attention to specific entry information provided.

All guests must maintain a minimum of six feet distance from other guests. Masks are required while entering and exiting the facility and highly recommended for all persons while using the facility. Staff will be cleaning areas after each use. Patrons who are feeling sick or believe they may have come in contact with the virus are highly encouraged to stay home.

There will be no recreation programs offered at this time. The Community Center is following State and County regulations and guidelines and making plans to offer programs as soon as possible.

Additional information and Frequently Asked Questions are available on the Community Center’s website at <http://glenwoodrec.com/>

“It is exciting to reopen parts of the community center as it is personally something that my family and I have missed during this time. I would like to commend our Parks and Recreation staff for working tirelessly to make this happen. We would like to thank everyone for their patience as we navigated the complicated process of making sure we could reopen to the highest safety standards,” said Mayor Jonathan Godes.
