Tennis and Pickleball Rules of Use

Tennis and Pickleball Courts have been opened and will remain open as long as players follow the “Safer at Home” guidelines.

WE WILL CLOSE IMMEDIATELY IF GUIDELINES ARE NOT BEING FOLLOWED.

- Follow the CDC, State and County guidelines to protect yourself and others. The “Safer at Home” recommendations are to wear masks, socialize less and proceed with extreme caution.
- Players agree to NOT enter the courts if they have any symptoms or exposure risks as listed by the CDC guidelines.
- If you are an at-risk population (65 or over) it’s highly recommended you stay home through May.
- Maintain proper social distance (6 ft. apart) at all times whether engaged, waiting, or observing play in and around the court areas.
- At this time doubles play is allowed with people from your own household.
- Singles only play or drilling only (two players per court) if not from the same household with just one ball per person.
- No sharing of equipment in general, players will label a personal ball that ONLY they will touch during play. Do not pick up the other person’s ball, send it back with a foot paddle/racket lift or push.
- Pickleballs should be sanitized , prior to and post play.
- Pickleball nets should be brought to the facility and ONLY the net owner should set up/take down.
- Use every other court where practical.
- Limit your use of the courts to one hour, no gathering in groups of more than 10 when waiting to play.
- When not playing, wearing of face masks is encouraged for inward and outward protection of all players, especially when waiting to rotate on to the courts.
- No handshakes, racquet bumps or physical contact between players.
- Outdoor recreation (use of courts) must be within one’s community and/or no further than 10 miles from your residence.
- No scheduled or reserved league or drop-in play.
