Grading Permit General Requirements:

Office Use Only:

Date Received: _____ Date Paid: _____ Date Issued: _____ Issued by: _____ Date Permit Closed: _____

1. Refer to the City of Glenwood Springs Municipal Code and Engineering Standards for design and code requirements. Neglecting to read the requirements of these documents does not preclude the fulfillment of said requirements.
2. Refer to the Engineering Standards Chapter 4 – Stormwater for Minor and Major Grading and Drainage Plan and Reports requirements.
3. All construction and backfilling will be done to City Standards.
4. It will be the contractor’s responsibility to notify all utility companies (1-800-922-1987) 48 hours in advance of grading.
5. Repairs to damaged existing utilities will be back charged to the contractor doing the excavation.
6. This permit shall be kept available on the job site for the duration of the work.
7. Work shall not be accepted by the City until all provisions are met by the contractor.
8. Contractors are required to maintain a current City license with proof of workman’s compensation and public liability and property damage insurance.
9. Excavations on private property shall comply with the International Plumbing Code and Chapter 18 and Appendix J of the International Building Code.
10. There permittee should contact all property owners that will be affected by construction and keep them apprised of schedule and progress.
11. If it is determined at a later date that the building will not be constructed, the applicant shall backfill, grade and revegetate the site prior to expiration of the permit (See IBC section 105.5 for expiration date).
12. If at any time it is determined the disturbance area must extend into the public right-of-way, the Engineering Department will be contacted at (970) 384-6435 to secure the appropriate permit and approval.

Submittal of this permit does not guarantee approval of the grading permit.
